To whom this letter may concern:

I am currently an Inmate at the Norfolk City Jail. However, I've been receiving threats as well as an excessive amount of hardship for trying to exercise my constitutional rights to file a grievance against the prison officials. I am in a desperate need of relief without having to fear that the administration would continue to retaliate against me. I've made several unsuccessful attempts to resolve my complaint within the institution. Therefore, I'm requesting for the courts to intervene, so that my constitutional rights are protected, as well as for this mental and emotional abuse to stop immediately. Hopefully, this complaint is taken very seriously and given the utmost attention to prevent further abuse from the authorities at this facility.

Thank You!

Sincerely,

Arthur J. Chavis
